Reference letter & contact available upon request

INTRODUCTION

Hi, my name is Roberts Oleiniks and I am a self-taught programmer, who enjoys using both creativity and logical problem-based approach to develop applications and solutions. The field of IT & Programming fascinates me deeply as it has tremendous impact on our lives and I enjoy being part of this ever-changing field, able to discover new concepts every day!

IT - RELATED EXPERIENCE

The projects can be seen at <https://melbouvp.github.io/circlefolio/> and source code can be viewed at the provided Github account.

Affogato fashion

Affogato fashion is a full-fledged e-commerce website for shopping clothes - from minimalistic yet attractive front-end, database that stores users/shop items and back-end that provides payment ability. Made with React.js, Node.js, Express & Firebase.

Recognize AI

Recognize AI is an application that can detect human faces in an image based on the user's input images that they provide via URL. This process is enabled by using an API based AI algorithm. Made with React.js, Node.js, Express & PostgreSQL.

OTHER EXPERIENCE

March 2019 – July 2020 LR IeM Valsts policija – **police officer**

March 2016 - December 2018 IKEA A/S – **logistics co-worker**

June 2014 - October 2014 "Cross and Wells" Ltd – **packhouse operative**

September 2013 - January 2014 SIA "H&L studija" – **salesman assistant**

June 2013 - September 2014 SIA "Ziemupes pils" – **waiter**
